A brief characteristic of cooperation, extent

The project cooperation is focused on fight against racism and xenophobia, prejudice, on quality improvement of health care, giving first aid and development of language skills within KA1 projects. Further, we implement cooperation within the KA1 project “Improvement of methodical and didactical proficiency of teachers at Secondary Medical School and College of Higher Medical Education in Pilsen“ with Executive Training Institute in Malta in the area of Further education of teachers. We realize the multilateral international cooperation in the KA2 project “Professional and organizational growth & work based learning“ which will last till 2017. Apart from these projects, we are going to apply for the KA2 project “Strategic Partnership for Schools” and the KA2 project “Youth in action”.

We organized exchange professional educational stays in partnership facilities and practical trainings in hospitals in Germany and they are going to take place also in future. We are going to organize professional educational stays in the Czech Republic for schools from Slovenia, Germany and the USA.

In addition, our school regularly hosts students from all over the world for one week, which is arranged by the organization AIESEC. Students participate in teaching in the form of presentations and discussions.
