

# Profile of the Secondary Medical School and the College of Higher Medical Education

The Secondary Medical school and the College of Higher Medical Education in Pilsen has been providing high quality professional medical education for more than 70 years, which is highly in demand on the labour market. Our school belongs to the largest schools in the Pilsen region and ranks among the largest regional medical schools in the Czech Republic.

Currently, there are more than 1000 pupils and students. The tuition is provided by 170 highly qualified internal and external teachers.

In the context of professional practice, we cooperate with the highest number of health care facilities in the Pilsen region and with many other outside it. Our main partners are the Teaching hospital Pilsen, Mulač hospital Pilsen, Privamed hospital Pilsen, municipal charity, Children's center and a number of other state and private medical facilities.

We have a very good material base – modern training classrooms equipped with audio-visual equipment and a number of specialized didactic teaching aids, well-equipped laboratories with instrument technology, ICT classrooms with Internet access, a lecture room, a study room with plenty of specialized literature and fiction. In the premises of the school there are located a vending machine for drinks, a school buffet, and lockers for the needs of the students. Of course, there is also a possibility of accommodation and catering in the school canteen.
